ABOUT US

More than 10 years of industry experience

CT Mobility is a UAE-based technology company specializing in shared mobility and corporate car sharing.

Our platform combines centralized fleet management with branded iOS and Android apps. Employees can book and access vehicles digitally, while companies control usage, monitor operations and improve vehicle utilization.

PARTNER OFFER

25% Lifetime Revenue Share

Introduce CT Mobility to companies that run corporate fleets. Earn 25% of the software subscription payments we receive from customers you refer, for as long as they keep paying.

25%

REVENUE SHARE

of software subscription
payments from customers
you refer

LIFETIME

for as long as the
customer keeps paying
for the subscription

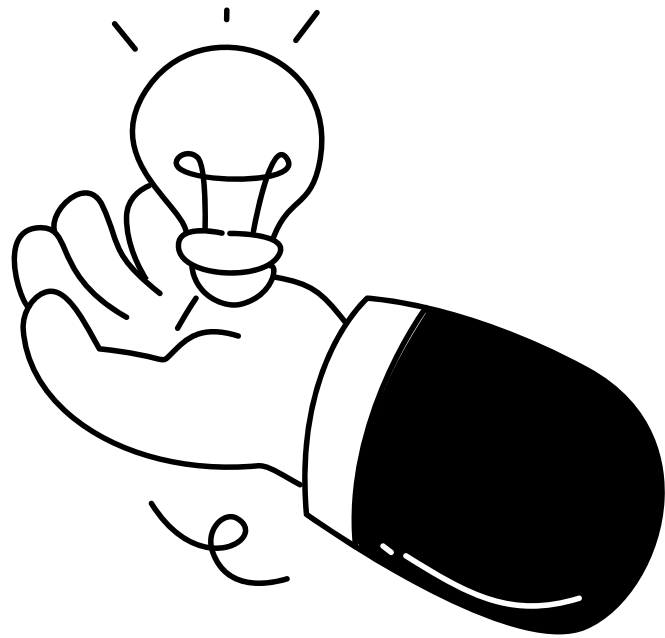

WHAT YOU GET

- ✓ Recurring income from every customer you refer
- ✓ We handle the demo, setup, onboarding and support
- ✓ Introductions only with your client's consent
- ✓ A proven platform with 60M+ trips completed

Hardware payments are excluded. Full terms are set in the partner agreement.

HOW IT WORKS

Three Simple Steps

Step 01 – Introduce

Tell your client about CT Mobility and connect us, with their consent.

Step 02 – We Handle It

We review the client's needs and vehicle compatibility and sign the customer agreement.

Step 03 – You Earn

Receive 25% of collected subscription payments for as long as the client pays.

EARNINGS EXAMPLE

Your Recurring Income

25% of collected subscription payments, for as long as the customer keeps paying.

50 VEHICLES

Client pays AED 2,500 / month

YOUR SHARE

AED 625

per month

AED 7,500 per year

100 VEHICLES

Client pays AED 5,000 / month

YOUR SHARE

AED 1,250

per month

AED 15,000 per year

300 VEHICLES

Client pays AED 15,000 / month

YOUR SHARE

AED 3,750

per month

AED 45,000 per year

1,000 VEHICLES

Client pays AED 50,000 / month

YOUR SHARE

AED 12,500

per month

AED 150,000 per year

Illustrative examples at AED 50 per vehicle per month, assuming the vehicles remain subscribed and all 12 monthly payments are received. Actual earnings depend on collected subscription payments. Hardware and separately billed services are excluded.

IDEAL PARTNERS

Who It's For

01

Telematics & GPS installers

Offer the fleets you equip digital booking and trip records.

02

Leasing & rental companies

Give corporate clients self-service booking and full trip control.

03

Logistics & mobility platforms

Bring a ready fleet tool to your customers and partner network.

04

Fleet services & consultants

Maintenance, insurance, fuel cards: recommend a proven platform.

Running your own fleet? You can join as a regular customer; commission applies to referred customers only.

WHAT YOUR CLIENTS GET

Key Benefits

01

Higher fleet utilization

Increase vehicle utilization through shared access and a fast, fully digital booking process.

02

Automated fleet operations

Manage bookings, users, vehicle access and trips within one platform.

03

Lower administrative costs

Eliminate manual vehicle handovers with keyless access and self-service rentals.

PRICING

Simple, Transparent Pricing

AED 50

PER VEHICLE PER MONTH

- ✓ White-label mobile app
- ✓ Fleet management platform
- ✓ Technical support
- ✓ Unlimited users
- ✓ Software updates

BILLED SEPARATELY

- ✗ Cloud hosting and server infrastructure
- ✗ SMS notification fees
- ✗ Telematics hardware and installation
- ✗ M2M SIM cards and mobile data

No setup fee or per-user charges. AED 500 minimum monthly subscription.

HARDWARE & CONNECTIVITY

Telematics Hardware

Billed separately from the subscription: hardware and installation once per vehicle, data yearly.

 ONE-TIME	 IF REQUIRED	 ONE-TIME	 YEARLY
GPS tracker Teltonika FMC130	CAN adapter Teltonika LV-CAN200	Installation FMC130 + LV-CAN200	SIM & data M2M SIM card
AED 160 per vehicle Location, trips, mileage and engine cut-off control.	AED 195 per vehicle Central locking and extra vehicle data, simpler connection.	AED 250 per vehicle Engine cut-off, central locking connection and integration.	AED 240 per vehicle per year Mobile data for the tracker, renewed every year.

The CAN adapter depends on the vehicle make, model and required functions; each model starts with a CAN review. Final hardware quote after vehicle review. Hardware payments are not part of the partner commission.

PILOT FOR YOUR CLIENTS

Start With a Pilot

Discuss a software pilot on two suitable vehicles, subject to compatibility and agreed scope. Your client sees the platform in real operating conditions before deciding.

2

VEHICLES

suitable vehicles for a
software pilot

15

MINUTES

intro call to agree the pilot
scope

WHAT THE CLIENT GETS

- ✓ Access to the branded app and fleet management platform
- ✓ Real trips with their own drivers and vehicles
- ✓ Usage data on trips, mileage and vehicle utilization
- ✓ Setup, onboarding and support from our team

Pilot duration and costs are agreed separately. Vehicle compatibility is confirmed first.

BEYOND TELEMATICS

More Than GPS Tracking

Your clients get standard telematics plus keyless access and full fleet control in one platform.

STANDARD

Basic telematics

- ✓ GPS tracking
- ✓ Live vehicle map
- ✓ Mileage
- ✓ Fuel level
- ✓ Trip history

+

 **Keyless access**

Find the car on the map, start a trip, unlock it and start the engine in the app.

 **Photo inspections**

Before and after every trip, visible in the admin panel in real time.

 **Selfie + liveness**

Optional driver check: a live selfie matched to the admin profile.

 **Fuel & mileage**

Consumption, mileage, refuelling and fuel drain detection.

 **Salik integration**

UAE road toll charges linked to vehicles, trips and drivers.

 **Driving alerts**

Speeding, harsh driving and other real-time notifications.

 **200+ permissions**

Flexible roles and access separated by fleet.

 **Video monitoring**

Optional in-vehicle cameras for extra security.

 **Unlimited history**

All trip and vehicle data stored with no time limit.

Keyless access and engine control require compatible telematics hardware. [Watch it in action: ct.ms/video/keyless.mp4](https://ct.ms/video/keyless.mp4)
