Our Customers

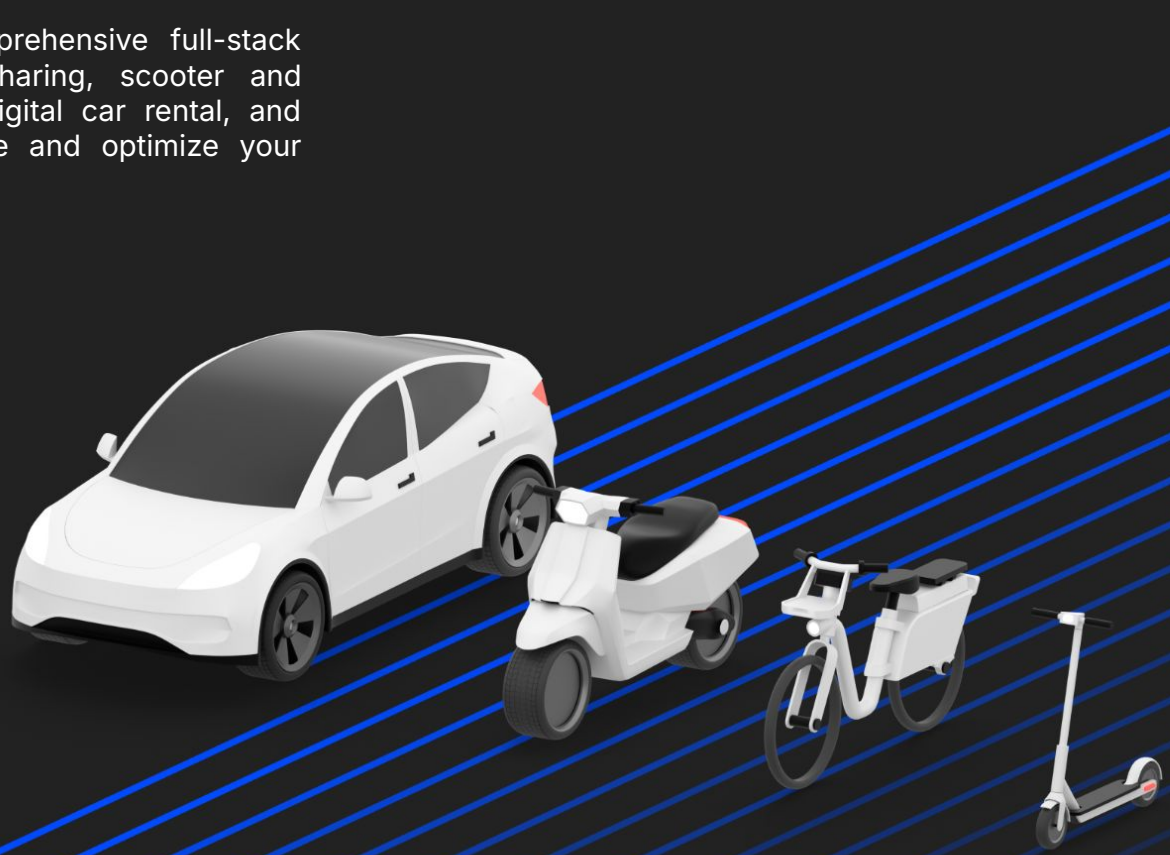
CT Mobility

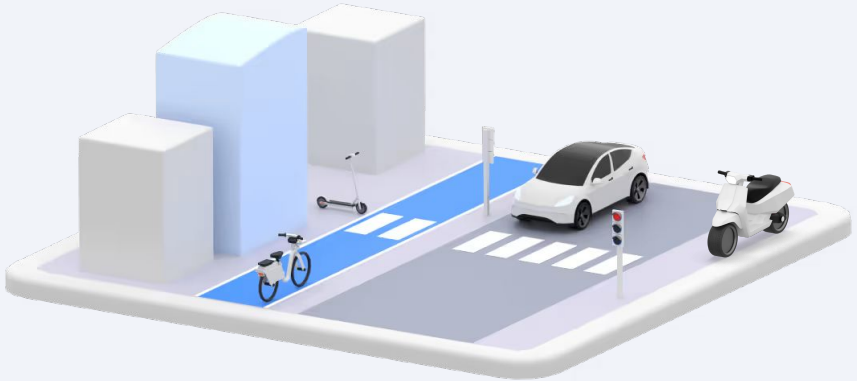
CT Mobility provides a comprehensive full-stack solution that integrates carsharing, scooter and bicycle sharing, taxi rental, digital car rental, and leasing services to streamline and optimize your transportation operations.



Our Solutions: Sharing

Transform urban mobility with flexible vehicle sharing, featuring both station-based and free-floating models to cater to diverse user needs.

- Cars
- Scooters
- Mopeds
- Bicycles
- Trucks
- Tuktuks
- Boats



Our Solutions: Digital Rent

Harness the power of digital innovation to maximize fleet utilization. Offer customers an unbeatable experience with seamless automation - from ID verification and easy booking to keyless vehicle access.

Our Solutions: Fleet Management

Courier Vehicle Rentals

Tap into the growing demand for delivery services by starting your own courier vehicle rental business.

Taxi Fleet Rentals

Take control of your taxi business and drive success with our tailored management solution.

Car Leasing

Lease a car anytime, anywhere with just a few taps on your smartphone. No need for lengthy paperwork or in-person visits.

CT Mobility

All-in-One Vehicle Management

Stay connected to your fleet with every detail in one place

User information

Know who rented the vehicle

Rental Timeline

Track start and end times of the rent

Trip Duration

Review the total time and mileage of each trip

Remote Diagnostics

Log and monitor any issues identified

Vehicle condition

Access photos taken by the user at the start and end of each rental

Payment & verification

Automated billing and receipt generation

CT Mobility

Fleet Management Ecosystem

Connect your fleet to our platform using advanced telematic devices, enabling real-time tracking, remote diagnostics, and enhanced fleet management.

Professional hardware
for complete fleet control

Customizable native apps
for Android and iOS on your own accounts

Multi-component monitoring system
for all connected vehicles

Fleet management app
to optimize team performance and fleet efficiency

Your dedicated database server
to secure user data and prevent failures

CT Mobility

Double Your Fleet Efficiency

Experience a seamless rental process with our mobile app - no third-party involvement, just prompt, hassle-free operations that maximize productivity.

Discover the user journey:

1. **Download the app** on your smartphone
2. **Register an account** by providing personal information
3. **Find** a vehicle on the map
4. **Reserve** the vehicle
5. **Go** to the vehicle
6. **Unlock** the vehicle through the mobile app
7. **Inspect** the vehicle and take photos of any visible damages
8. **Start** the rental with a tap in the app, sign the vehicle acceptance certificate digitally
9. **Drive**
   Be mindful of parking zones, speed limits, and usage policies
10. **Finish** the rental
    The app will automatically calculate the cost

Cut Costs, Boost Results

Lower Upfront Costs

Ready-made CT Mobility solution saves costs over in-house development

Reduced Labor Costs

Your business can be managed efficiently with fewer employees. Grow your operations without increasing workforce size

All-in-One Management

Keep users, trips, accidents, and traffic violations securely stored in one centralized system - access everything you need at a glance

Faster Time-to-Market

Start operations quickly with pre-built and tested features. Benefit from continuous improvements without delays

Vehicle access 24/7

Customers can book, unlock, and return vehicles via an app without staff intervention

Optimized operations

Automated pricing models reduce the need for constant monitoring and manual adjustments

Build Loyalty with Ease

With CT Mobility solution, client retention becomes simple. Customers download your app once and enjoy seamless access to your service anytime, fostering long-term loyalty.

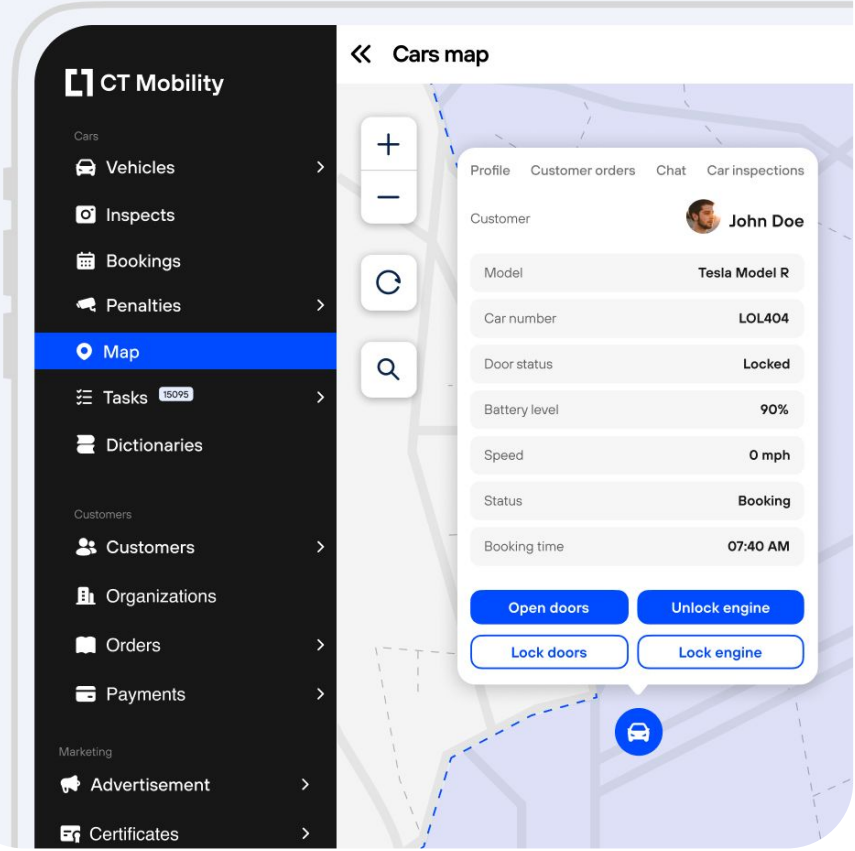
A lower Customer Acquisition Cost (CAC) ensures better profitability and growth.

CT Mobility

Innovations For Smarter Fleets

- Reduced Fuel Consumption
- Driving Style Monitoring

- Maintenance Scheduling
- Damage Tracking



Unlock the Power of Our Software

Gain complete visibility of your fleet with our intuitive dashboard and booking calendar.

Monitor all operations from one central hub, while integrated payment processing and automated booking assignments streamline tasks and save your team valuable time.

24/7 Remote Vehicle Access	Booking Calendar	Payment Configurations	Built-in Support Chat	Intuitive Dashboard	Flexible Rate Configuration	Dynamic Pricing
Radar	In-app Refueling	Scheduled Vehicle Cleaning	Speed Control	Remote Engine Blockage	Deposit Setup	Zones Configuration
Push-Notifications	In-app Offers	Referral Program	Bonuses and Promo-codes	SMS-Notifications	Vehicle Subscriptions	Gift Certificates

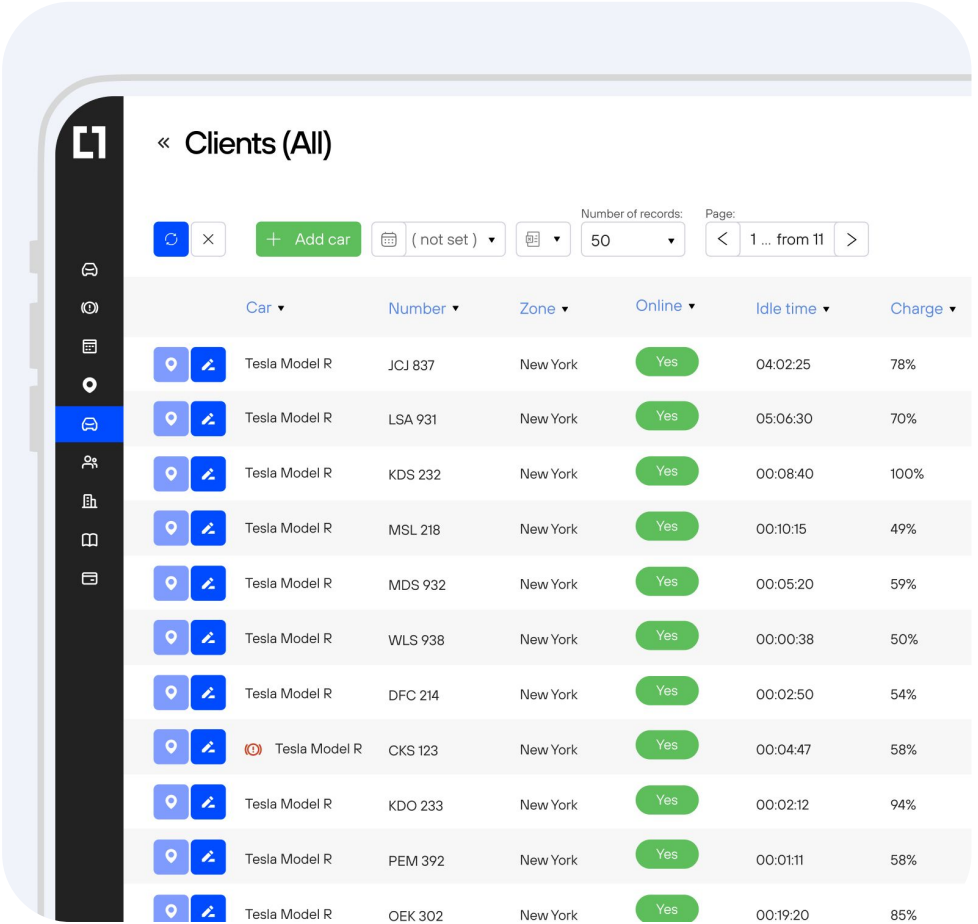
Product Details

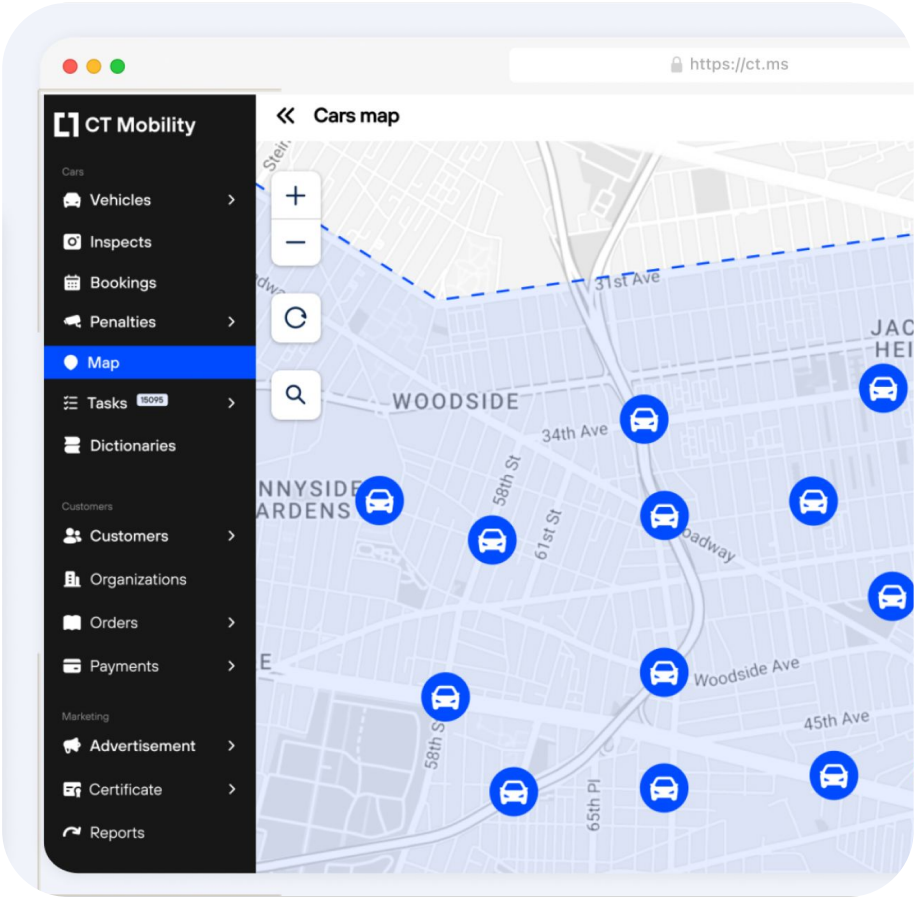
Remote Fleet Management

- **Remote Access:** Lock and unlock the vehicle
- **Engine Control:** Enable or disable the engine remotely
- **Availability Check:** Monitor and manage vehicle readiness for customers
- **Climate Optimization:** Remotely preheat or cool vehicles for a comfortable start

Real-Time Vehicle Monitoring

- **Fuel Status:** Track current fuel levels remotely
- **Battery Health**: Monitor battery charge in real time
- **Mileage Updates:** Access up-to-date odometer readings
- **Vehicle Condition:** Check engine status and door locks





Product Details

Zones Configuration Management

- **Service Zones:** Define and manage areas where vehicles can be used
- **Parking Zones:** Set designated locations for vehicle pickup and drop-off

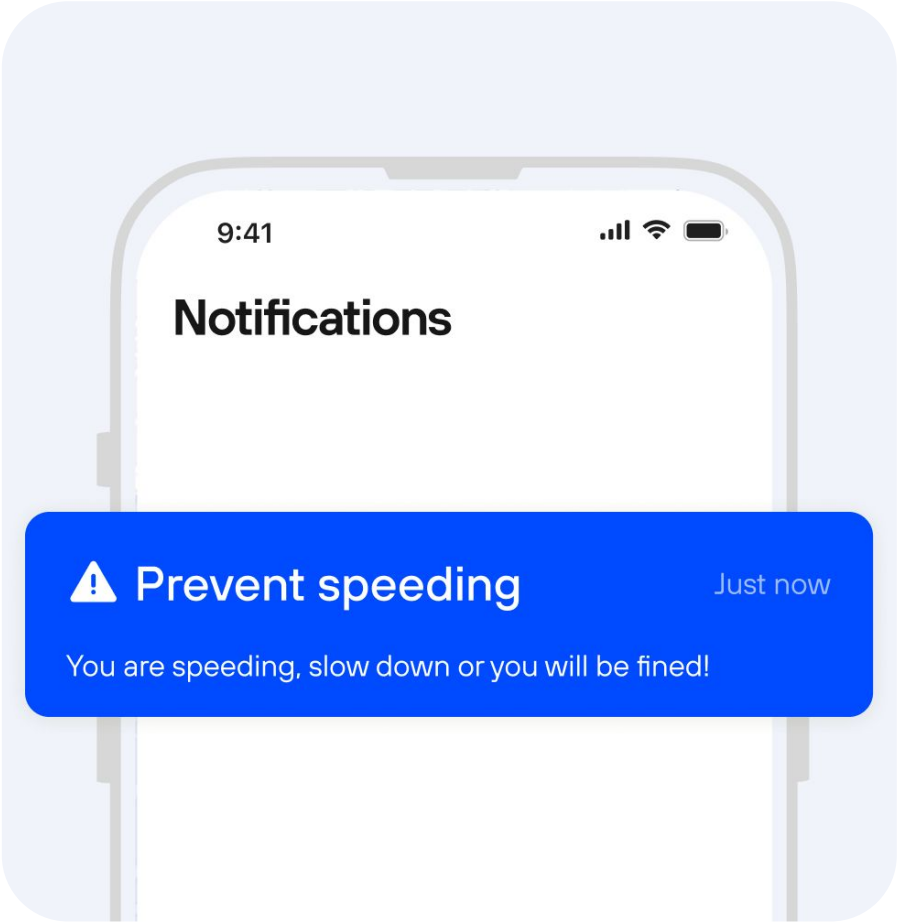
Product Details

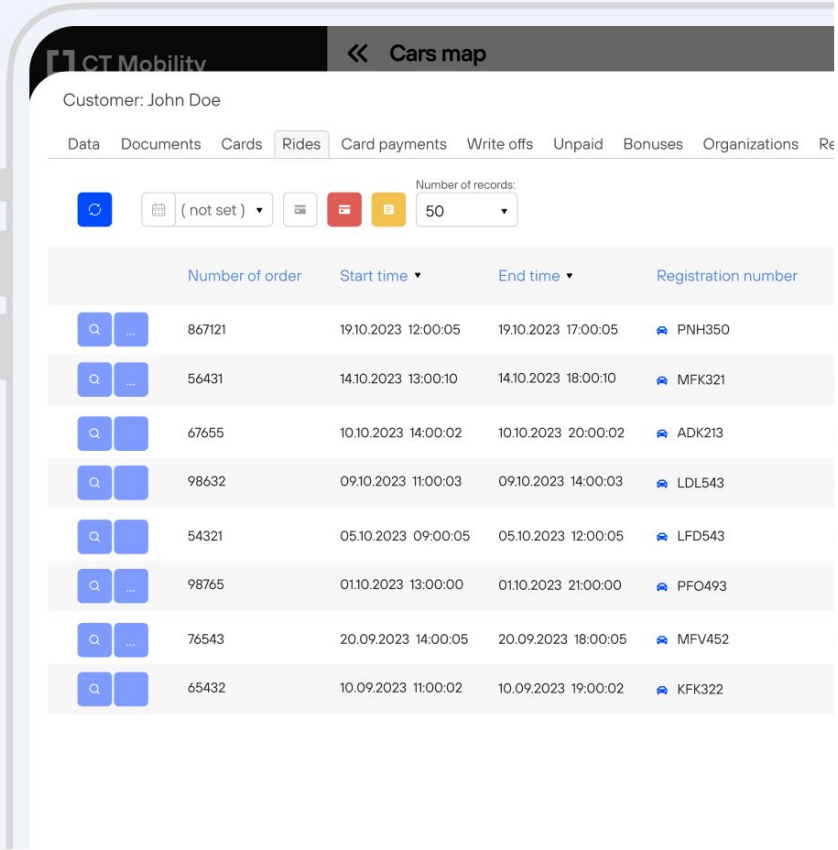
Comprehensive Reporting System

- **Users Reports**
- **Rides Reports**
- **Alerts and alarms:** Receive notifications for events like overspeeding, driving with the handbrake engaged, etc.

Incident Monitoring

- **Damage reports**
- **Fuel Alerts**: Identify vehicles with critically low fuel levels
- **Speed Violations**
- **Impoundment Tracking**
- **Theft Alerts**





Product Details

History of All Rides

- **User Info:** Access detailed profiles of users associated with each ride
- **Trip Duration:** View start and end times of all rides
- **Route Tracking**
- **Speed Analysis**

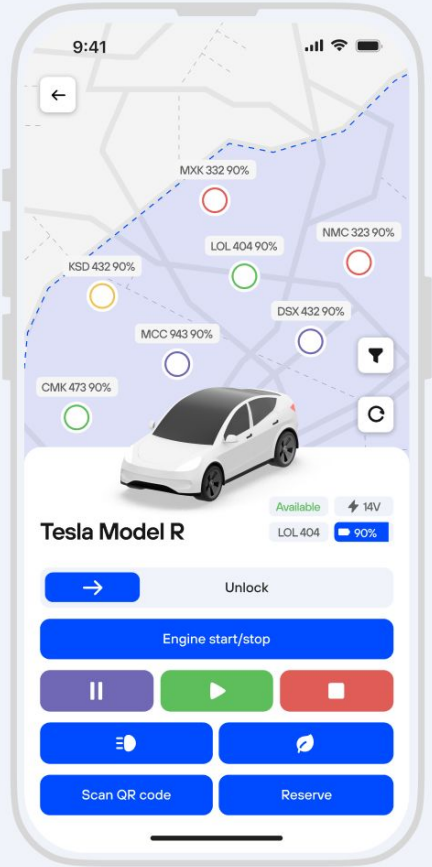
User Account Management

- **Organizational Structure:** Group users into divisions and branches
- **Custom Permissions:** Assign differentiated access levels and privileges for users
- **Usage Limits:** Set specific restrictions for user groups by days, hours, or total allowed usage time

Fleet Management App

Technicians can efficiently manage vehicles, schedule vehicle cleaning, monitor battery and fuel levels, and assist customers directly from their smartphones.

- Instant identification of vehicle status
- Customizable color-coded markers and advanced filters
- Vehicles search by number
- QR codes for instant access: unlock, lock, or access compartments (helmets, batteries) via QR code



Our Technology Partners

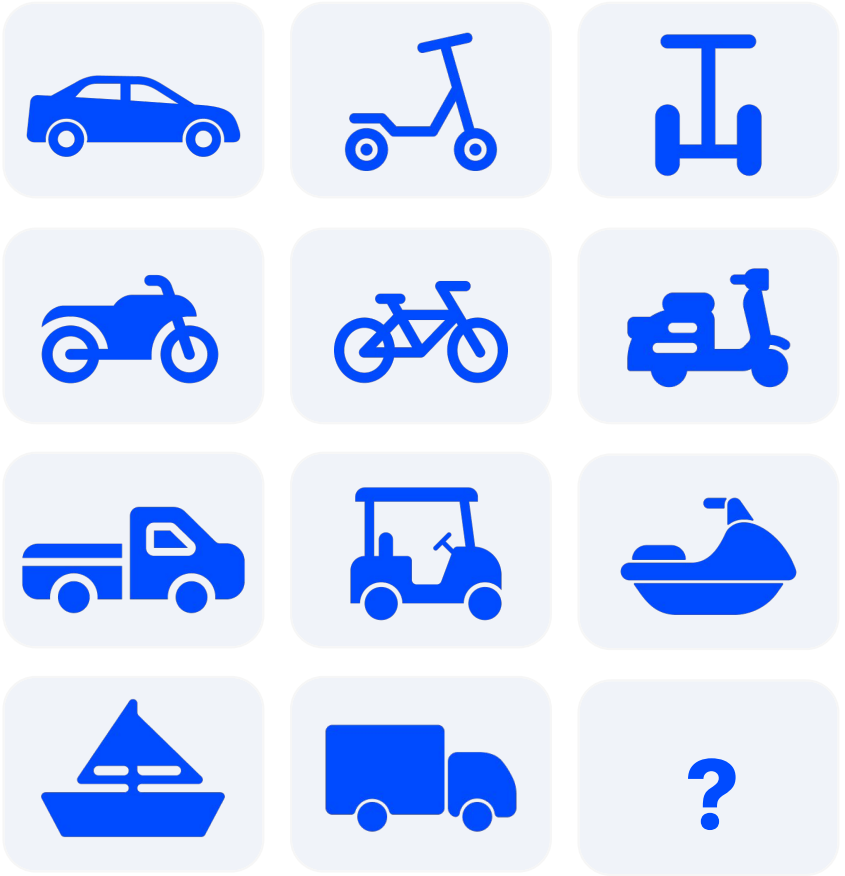
We work with a wide range of suppliers to integrate top-quality equipment tailored to your business needs. Our experts will help you select the optimal solution, and if you already have equipment, we can connect it within just a few weeks.

CT Mobility

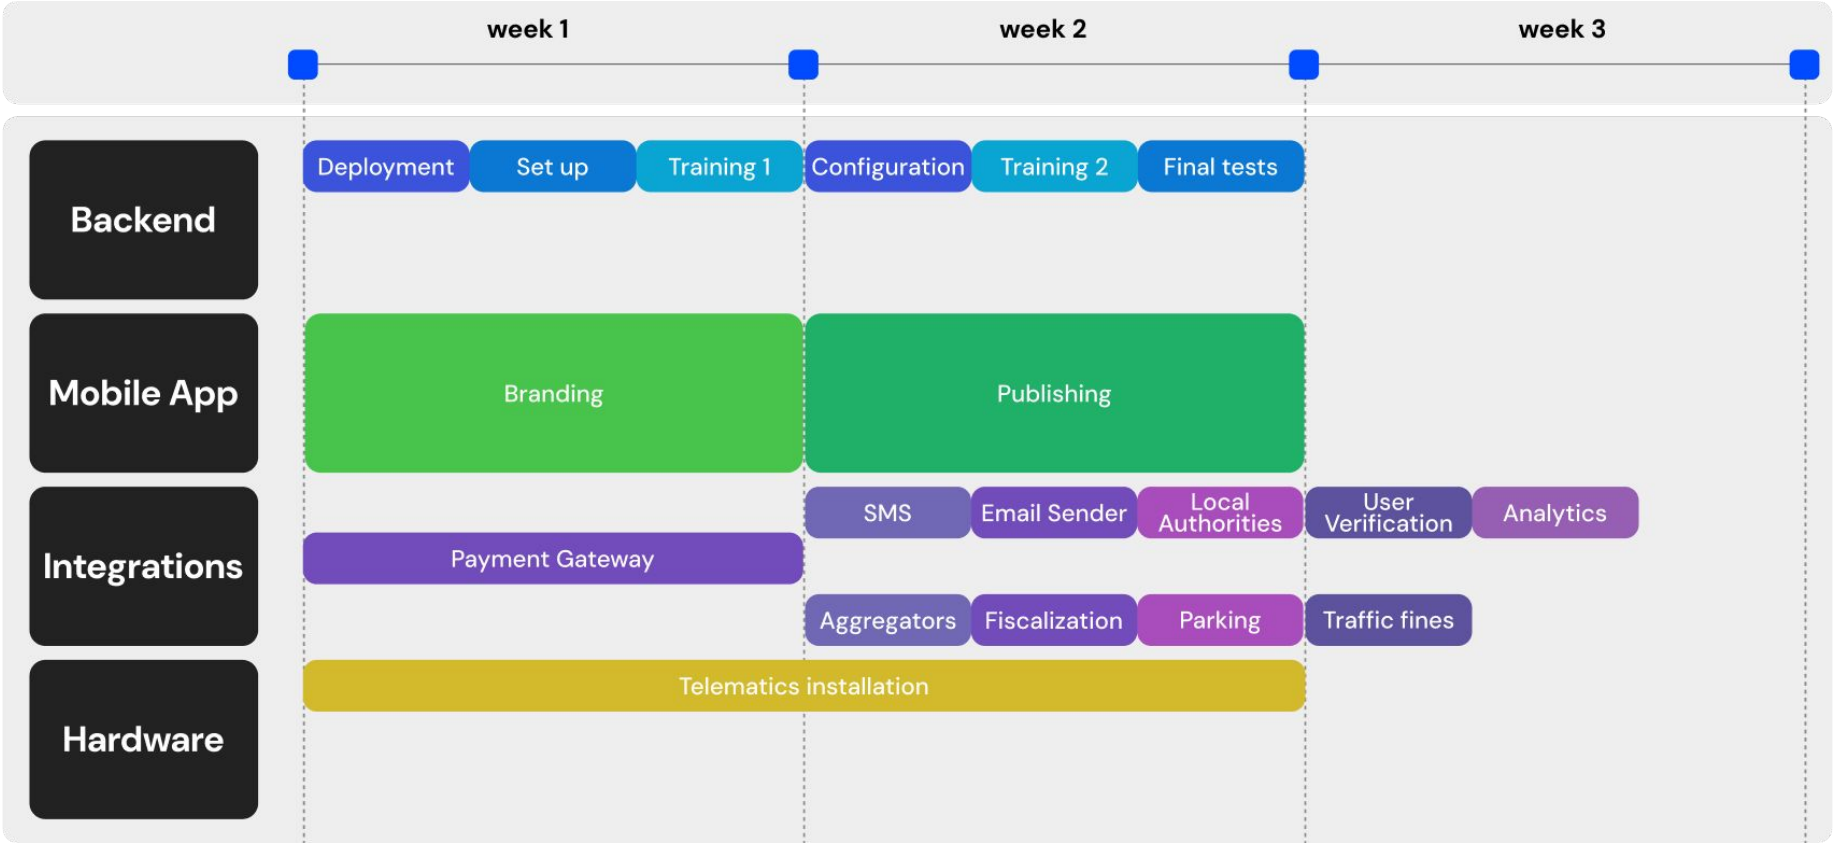
Affordable, Transparent Solution

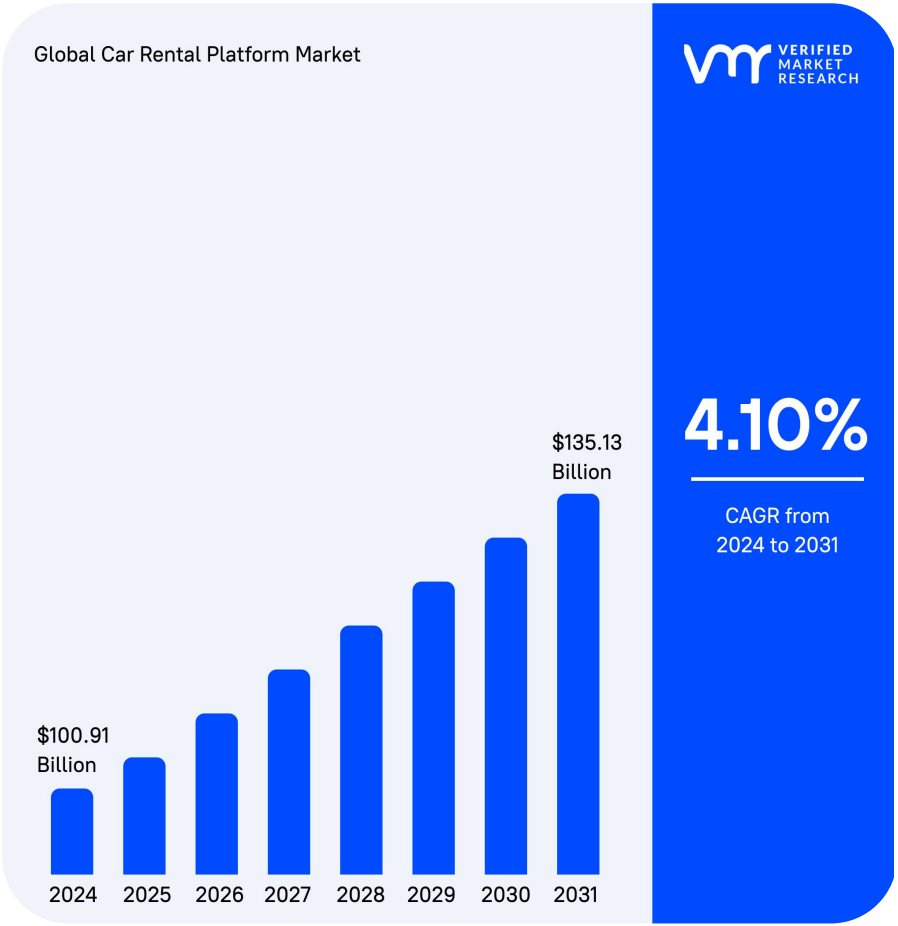
While many SaaS platforms are either overpriced for larger businesses or limited in scope for smaller ones, we've crafted a solution that combines affordability with the flexibility to scale as your business evolves.

- **No set-up fee**
- **Fixed price for every connected vehicle**
- **Volume discounts: more vehicles, lower prices**



Development Stages





Market Opportunity

The vehicle rental market is evolving, driven by the growing popularity of online booking platforms. This trend is setting a new standard for convenience and smart decision-making in vehicle rentals.

Car rental platforms are positioned to grow significantly due to trends like urbanization, the shift toward the sharing economy, and the rise of electric vehicles.

Efficient management of rental fleets is crucial for maximizing profitability and minimizing operational costs. Advanced software solutions provide tools for tracking vehicle utilization, scheduling maintenance, and optimizing fleet performance.
